Department Group	Pre clinical Department												
Specialty	None												
Department Name	Anatomy												
Introduction	The Department of Anatomy was established in the year 2001. In this department students learn Human Anatomy which forms firm foundation of the whole art of medicine. The students actually dissect human cadavers under supervision of teachers so that they can learn structure of the human body. The department has well equipped histology and research laboratories. The museum of department displays various soft specimens, bones, embryology models, charts, CDs etc for the benefit of the students. Students learn fundamentals of genetics and radiology. The department has well established library which includes various reference books, journals for the benefit of Undergraduate and Postgraduate students.
